San Bernardino Avenue Repairs Approved

SAN BERNARDINO - The Board of Supervisors on Tuesday approved a contract to repair damage to San Bernardino Avenue in unincorporated Fontana that was caused by severe flooding during the winter of 2005.

International Pavement Solutions, Inc. of San Bernardino will replace about 1,500 feet of damaged sidewalks, curbs and gutters on San Bernardino Avenue near Etiwanda Avenue and also will repair pavement damage in accordance with the \$157,894 contract.

"We had a very wet winter last year, and flooding caused significant damage to many county roads," San Bernardino County Second District Supervisor Paul Biane said. "We are working hard to make sure these roads are repaired as soon as possible and that damaged gutters and sidewalks are replaced."

San Bernardino Avenue repairs are schedule to begin in April and should be

completed by mid-May. Motorists are advised to heed construction zone speed limits through the area while repairs are taking place.
